

Wake Interfaith Hospitality Network (Transitional Housing Program)

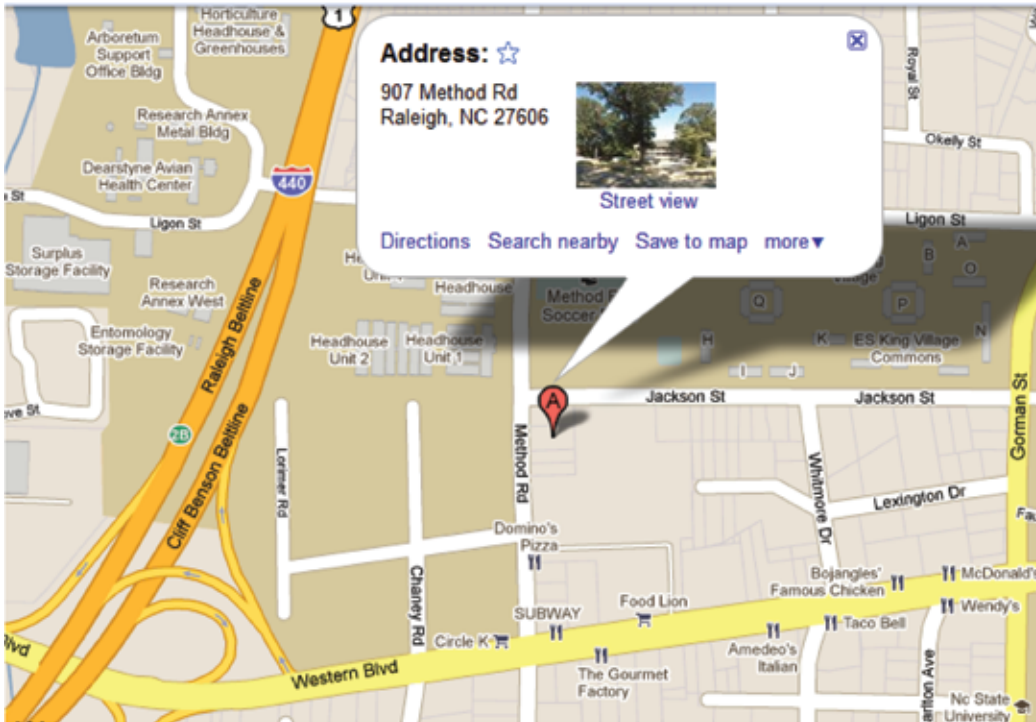

Wake Interfaith Hospitality Network's mission is to provide shelter, meals, case management and educational services to homeless families in addition to promoting action and awareness in the community regarding homelessness.

The Transitional Housing Program will provide 12 units of housing for homeless families. By adding transitional housing, WIHN will enable guest families to have a much higher chance of remaining independent through intensive case management services and stable housing.

The Transitional Housing Program will serve between 12 and 16 families for a period up to one year. It will consist of four service components: intensive case management; life skills education and skill attainment; staff facilitated support group; and information and referral services. The service plan will address: nutrition, budgeting, eating habits, healthy recipes for a tight budget, counseling for abuse, coping with stress, disciplining children, communication skills, education and job training, housing resources, and medical referrals.
